

TERRE PRÉCIEUSE

CHARDONNAY

DOC DEALU MARE

SITUATION

The vines of the DEALU MARE (which in Romanian means "great hill slope") are the most famous and renowned vine growing area in Romania. It is 60 kilometers long on hillsides which starts from the southeast of the Carpathian Mountains, enjoying the sun from early morning and a good sunlight all day long.

After the rain, the gentle hillslopes allow good drainage and the wind that is always present, dries the grapes rapidly.

Reknown for its red wines, the Dealu Mare also produces, on its most chalky soils, fantastic whites.

PRODUCTION & ORGANIC CERTIFICATION

To produce this high-end wine, we have selected the wines made with grapes from our best parcels of vines in the village of Breaza. Yields are very low and the wines produced are particularly concentrated. Moreover, to have a great aromatic complexity, we have chosen to age them in new oak, like the best wines of Burgundy.

Our vines in Breaza are grown organically, meaning that we use no insecticide, herbicide, pesticide or any chemical fertilizer. This method of cultivation is certified by Ecocert approved by the EEC according to the European regulations.

TASTING NOTES & GASTRONOMY

Our Chardonnay is fruity and soft, with beautiful aromas of flowers and fruits. It is a flattering wine, with a good balance between the acidity and the roundness.

It pairs well with cooked meats, hot or cold and can of course be served with grilled fish or sauce. You might also enjoy it with snacks in front of your TV.

STORY

Chardonnay is the grape used to produce the best Burgundy whites such as Montrachet or Meursault. Our Chardonnay is the dream come true of a burgundy producer who was convinced that the Dealu Mare is one of the few wine regions in the world able to compete with Burgundy terroir.
